SUMMARY

Passionate B.Tech CSE student at Roorkee Institute of Technology specializing in AI-powered full-stack development. Experienced in building real-world projects including AI assistants, 3D portfolio websites, and data dashboards. Proven ability to solve complex problems, demonstrated through multiple hackathon wins and hands-on project development. Strong focus on creating scalable, user-centric, and visually engaging digital solutions using modern technologies.

SKILLS

Frontend Development
- React.js, Next.js, Tailwind CSS

Backend & Programming
- Node.js (basic), Python, C Programming

Data & Analytics
- SQL, Power BI, Data Analysis

AI & Tools
- AI Integration (ChatGPT APIs), Git, GitHub

Design & UI/UX
- 3D Web Design, Responsive Design, Modern UI Systems

EXPERIENCE

Hackathon Winner | Hybrid Project with AI Features **2026**
24-Hour Hackathon

- Built an Air Quality & Pollution Dashboard using Power BI during a 24-hour hackathon.
- Analyzed AQI data across regions using Python, SQL, and Kaggle datasets.
- Delivered insights through interactive visualizations under strict deadlines.

AI & Full-Stack Developer **2025 – Present**
Personal Projects

- Developed AI Assistant applications with real-time interaction capabilities.
- Created a 3D animated portfolio website with modern UI/UX and immersive design.
- Built task management dashboards using React, Next.js, and Tailwind.
- Focused on performance optimization, scalability, and clean architecture.

EDUCATION

Roorkee Institute of Technology **2025 – Present**
B.Tech in Computer Science Engineering

- Core Subjects: Data science, Programming for Problem Solving.
- Actively building projects in AI, Web Development, and Data Analytics.
- Continuously learning and applying modern technologies to solve real-world problems.
- Strong foundation in DSA, databases, and software development principles.

CERTIFICATIONS AND LICENSES

- Hackathon Winner
- Gold Medalist – Quiz Competition
- Google Developer Group (GDG) Hackathon Certification
- Multiple certifications in Hackathons encompassing AI, Web Development & Data Science

HOBBIES AND INTERESTS

Creative design & digital product building.

Exploring AI innovations and future technologies.

Strategic gaming & analytical problem-solving.

KEY STRENGTHS

Problem Solving | Team Collaboration | Time Management | Continuous Learning | Adaptability
